

ABDUL AHAD

Full-Stack Developer | AI Automation Specialist | Digital Marketing Expert

Lucknow, India | +91 7394872337 | ahad47057@gmail.com | [linkedin.com/in/ahad016](https://www.linkedin.com/in/ahad016)

PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer and Digital Marketing Specialist with hands-on experience delivering end-to-end digital solutions — from MERN stack web applications and AI-powered automation workflows to high-ROI paid ad campaigns and SEO-driven growth strategies. Proven ability to build conversion-focused products, integrate REST APIs, and scale online brands through data-driven marketing. Adept at bridging the gap between technology and business outcomes, with a track record of reducing CPA, improving ROAS, and shipping production-ready code.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), React.js, Redux, Tailwind CSS, Responsive Design
Backend	Node.js, Express.js, REST API Design, JWT Authentication, Middleware Architecture
Database	MongoDB, MySQL, Mongoose ODM, SQL Queries & Joins
AI & Automation	AI Workflow Automation, Prompt Engineering, Chatbot Integration, n8n / Zapier-style Pipelines
Digital Marketing	Meta Ads, Google Ads, SEO (On-Page & Off-Page), Funnel Building, CRO, GA4, Meta Pixel, UGC Ads
Tools & Platforms	Shopify, Git, GitHub, Vite, Firebase, Postman, Vercel, Netlify

PROFESSIONAL EXPERIENCE

Assistant MERN Stack Developer | Edoro Technologies LLP

Jan 2025 – Jun 2025

- Developed and maintained full-stack web features using MongoDB, Express.js, React.js, and Node.js
- Collaborated on REST API development, improving API response efficiency and data flow between frontend and backend
- Implemented authentication modules (JWT-based) and role-based access control for multi-user platforms
- Contributed to agile sprints; participated in code reviews and improved code quality through modular architecture
- Worked on production deployments, debugging, and performance optimization of web applications

PROJECTS

E-Commerce Web Application | Stack: React, Node.js, MongoDB, Shopify, Tailwind CSS

- Built a fully functional e-commerce store featuring product management, cart logic, and secure checkout flow
- Integrated payment gateway and implemented mobile-first responsive UI with Tailwind CSS
- Optimized Core Web Vitals — reduced page load time by 40%, improving SEO ranking and UX
- Connected Shopify backend APIs for inventory and order management automation

Fundraising Web Application | Stack: React, Redux, Node.js, Express.js, MongoDB

- Architected a full-stack fundraising platform with JWT authentication and role-based dashboards (Admin/Donor)

- Designed and consumed RESTful APIs for campaign creation, donation tracking, and real-time progress updates
- Built reusable Redux-powered UI components, reducing state management complexity across 15+ views
- Ensured secure data handling with input validation, error boundaries, and protected routes

AI Automation Workflow | *Stack: Node.js, Webhook Integrations, Prompt Engineering*

- Designed and deployed AI-driven automation pipelines to streamline repetitive business processes
- Integrated LLM APIs (ChatGPT/Claude) with webhook triggers for automated content generation and lead handling
- Reduced manual task time by ~60% through intelligent workflow orchestration

Paid Ads Campaign Management | *Stack: Meta Ads Manager, Google Ads, GA4*

- Managed full-funnel paid ad campaigns targeting US & India markets across Meta and Google platforms
- Conducted A/B testing on ad creatives, copy, and audiences to continuously improve performance metrics
- Achieved measurable reduction in CPA and significant increase in ROAS through data-driven optimization
- Tracked attribution using GA4 and Meta Pixel for accurate performance reporting

SEO Growth & Content Strategy | *Stack: On-Page SEO, Keyword Research, Analytics*

- Executed comprehensive keyword research and on-page SEO audits resulting in increased organic search visibility
- Optimized meta tags, schema markup, internal linking, and page speed across web properties
- Developed content calendars and Reels-based social media strategies, growing Instagram engagement organically

Dropshipping & Brand Launch | *Stack: Shopify, Meta Ads, Funnel Building, CRO*

- Built and launched a Shopify dropshipping store from scratch — product research, store design, and ad creative
- Implemented full marketing funnel: awareness → retargeting → conversion with email and ad touchpoints
- Handled UGC ad production, audience segmentation, and funnel CRO to maximise profit margins

EDUCATION

Master of Computer Applications (MCA)

2025 – Present

Integral University, Lucknow (Online Mode)

Bachelor of Computer Applications (BCA)

2022 – 2025

Integral University, Lucknow

CERTIFICATIONS & TRAINING

- SQL Course (Self-Learning) – Skill Course (ISO 9001:2015 Certified) | Dec 2024 — Hands-on querying, joins, aggregations, and data analysis
- MERN Stack Development Internship — Edoro Technologies LLP (Jan–Jun 2025)
- Meta Ads & Google Ads Campaign Management — Self-directed with live project experience
- AI Automation & Prompt Engineering — Practical workflow automation using LLM APIs
